FOOTWEAR SPRING 21

SS21 FOOTWEAR

A unique selection of shoes highlights Rossignol's iconic codes while delivering a fashionable spin to the season's total look.

A young & refreshing mood conquers the entire range of sneakers delivering comfort and support to the feet. The sneaker line-up introduces two new entries: the Sport Chic model and the street-fashion-oriented Heritage style.

One deriving from the mountain trail world, crafted with a breathable 3D mesh and integrated with a technical sole with patented Sensor 3 technology for maximum grip and comfort. The other boasting a mix of suede and 3D mesh set with an Eva sole and a rubber outsole.

RSC

WALK YOUR WAY

The multi-activity sneaker inspired by trail running is the best company for your daily routine. It is the ideal shoe for walking around the city, running at the park and traveling around the globe. Its technology provides instant comfort to the foot and a consistent support to the walk.

Sensor 3 System is an innovative sole with 3 pressure points that reduce pain, relax the feet and re-activate blood circulation. Body posture is always in appropriate position between comfort and performance to allow reaction to any stimulus.

Walk your way, wear RSC shoes.

RSC SNEAKERS TECHNOLOGIES

HIGHLY COMFORTABLE DROP

Drop is defined as the differential between the forefoot and the heel. The increase and / or decrease of this value (expressed in mm) change the posture from of the runner.

Drop 8 is the height that positions the body's posture in an appropriate position between comfort and performance, both for running and walking.

SENSOR 3 SYSTEM

Relaxing sole with 3 pressure points to reduce the pain, relax your foot and re-activate blood circulation.

OPTIMUM SUPPORT

The metatarsal wrapping band is a lateral support that completely envelops the metatarsal area, giving greater hold and wrapping to the foot while ensuring breathability thanks to its mesh structure.
