ABOUT US

A wide-angle photograph of a grassy hill under a hazy sky. Two people are walking away from the camera on the left side of the frame. In the background, there is a line of evergreen trees and distant mountains.

We believe in the power of the unique balance between aesthetics and function, between authenticity and modernism.

SINCE 1907,

Rossignol has celebrated skiing. A small workshop next to the French Alps, with a direct view on snowy peaks: Abel Rossignol's workplace. All began with the strong and sweet smell of wood on newly-cut skis. The joys of snow. The revelation of young ski champions. The first Olympics victories on Rossignol skis. An image specialized in ski racing. Rossignol was born.

Today, things evolved but we stayed the same: a focus on craftsmanship and high-tech equipment, a continuous quest for quality and performance.

Icon of the past and symbol of the present, inspired by French roots and historical ski heritage, we hold no boundaries for continued improvement and avant-gardism.

We develop performance and sport chic
skiwear and urbanwear, rooted in skiing.

OUR GOAL ?

**To outfit skiers and city-dwellers
with a deep dedication to style,
quality and performance.**

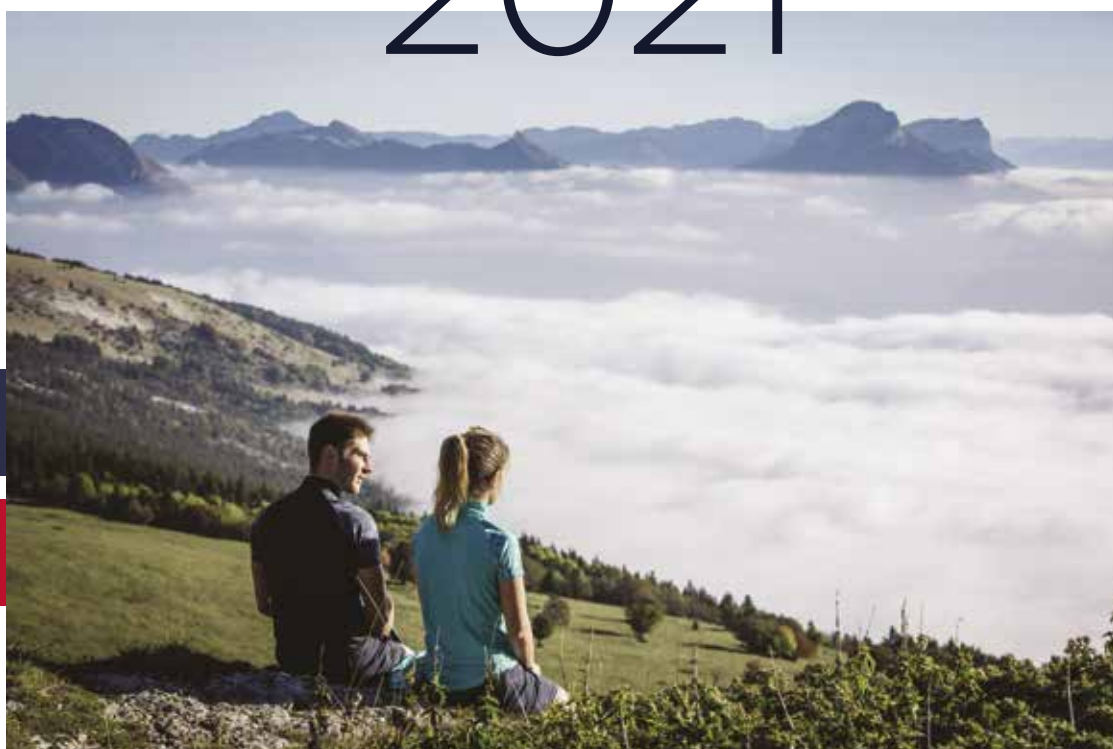

SPRING-SUMMER

From the snowy peaks to the sunny streets.
From a winter specialist shaped by a century-old mountain
legacy to a year-round brand.

Our new Spring-Summer collection is a consistent
evolution of the brand's enduring heritage.

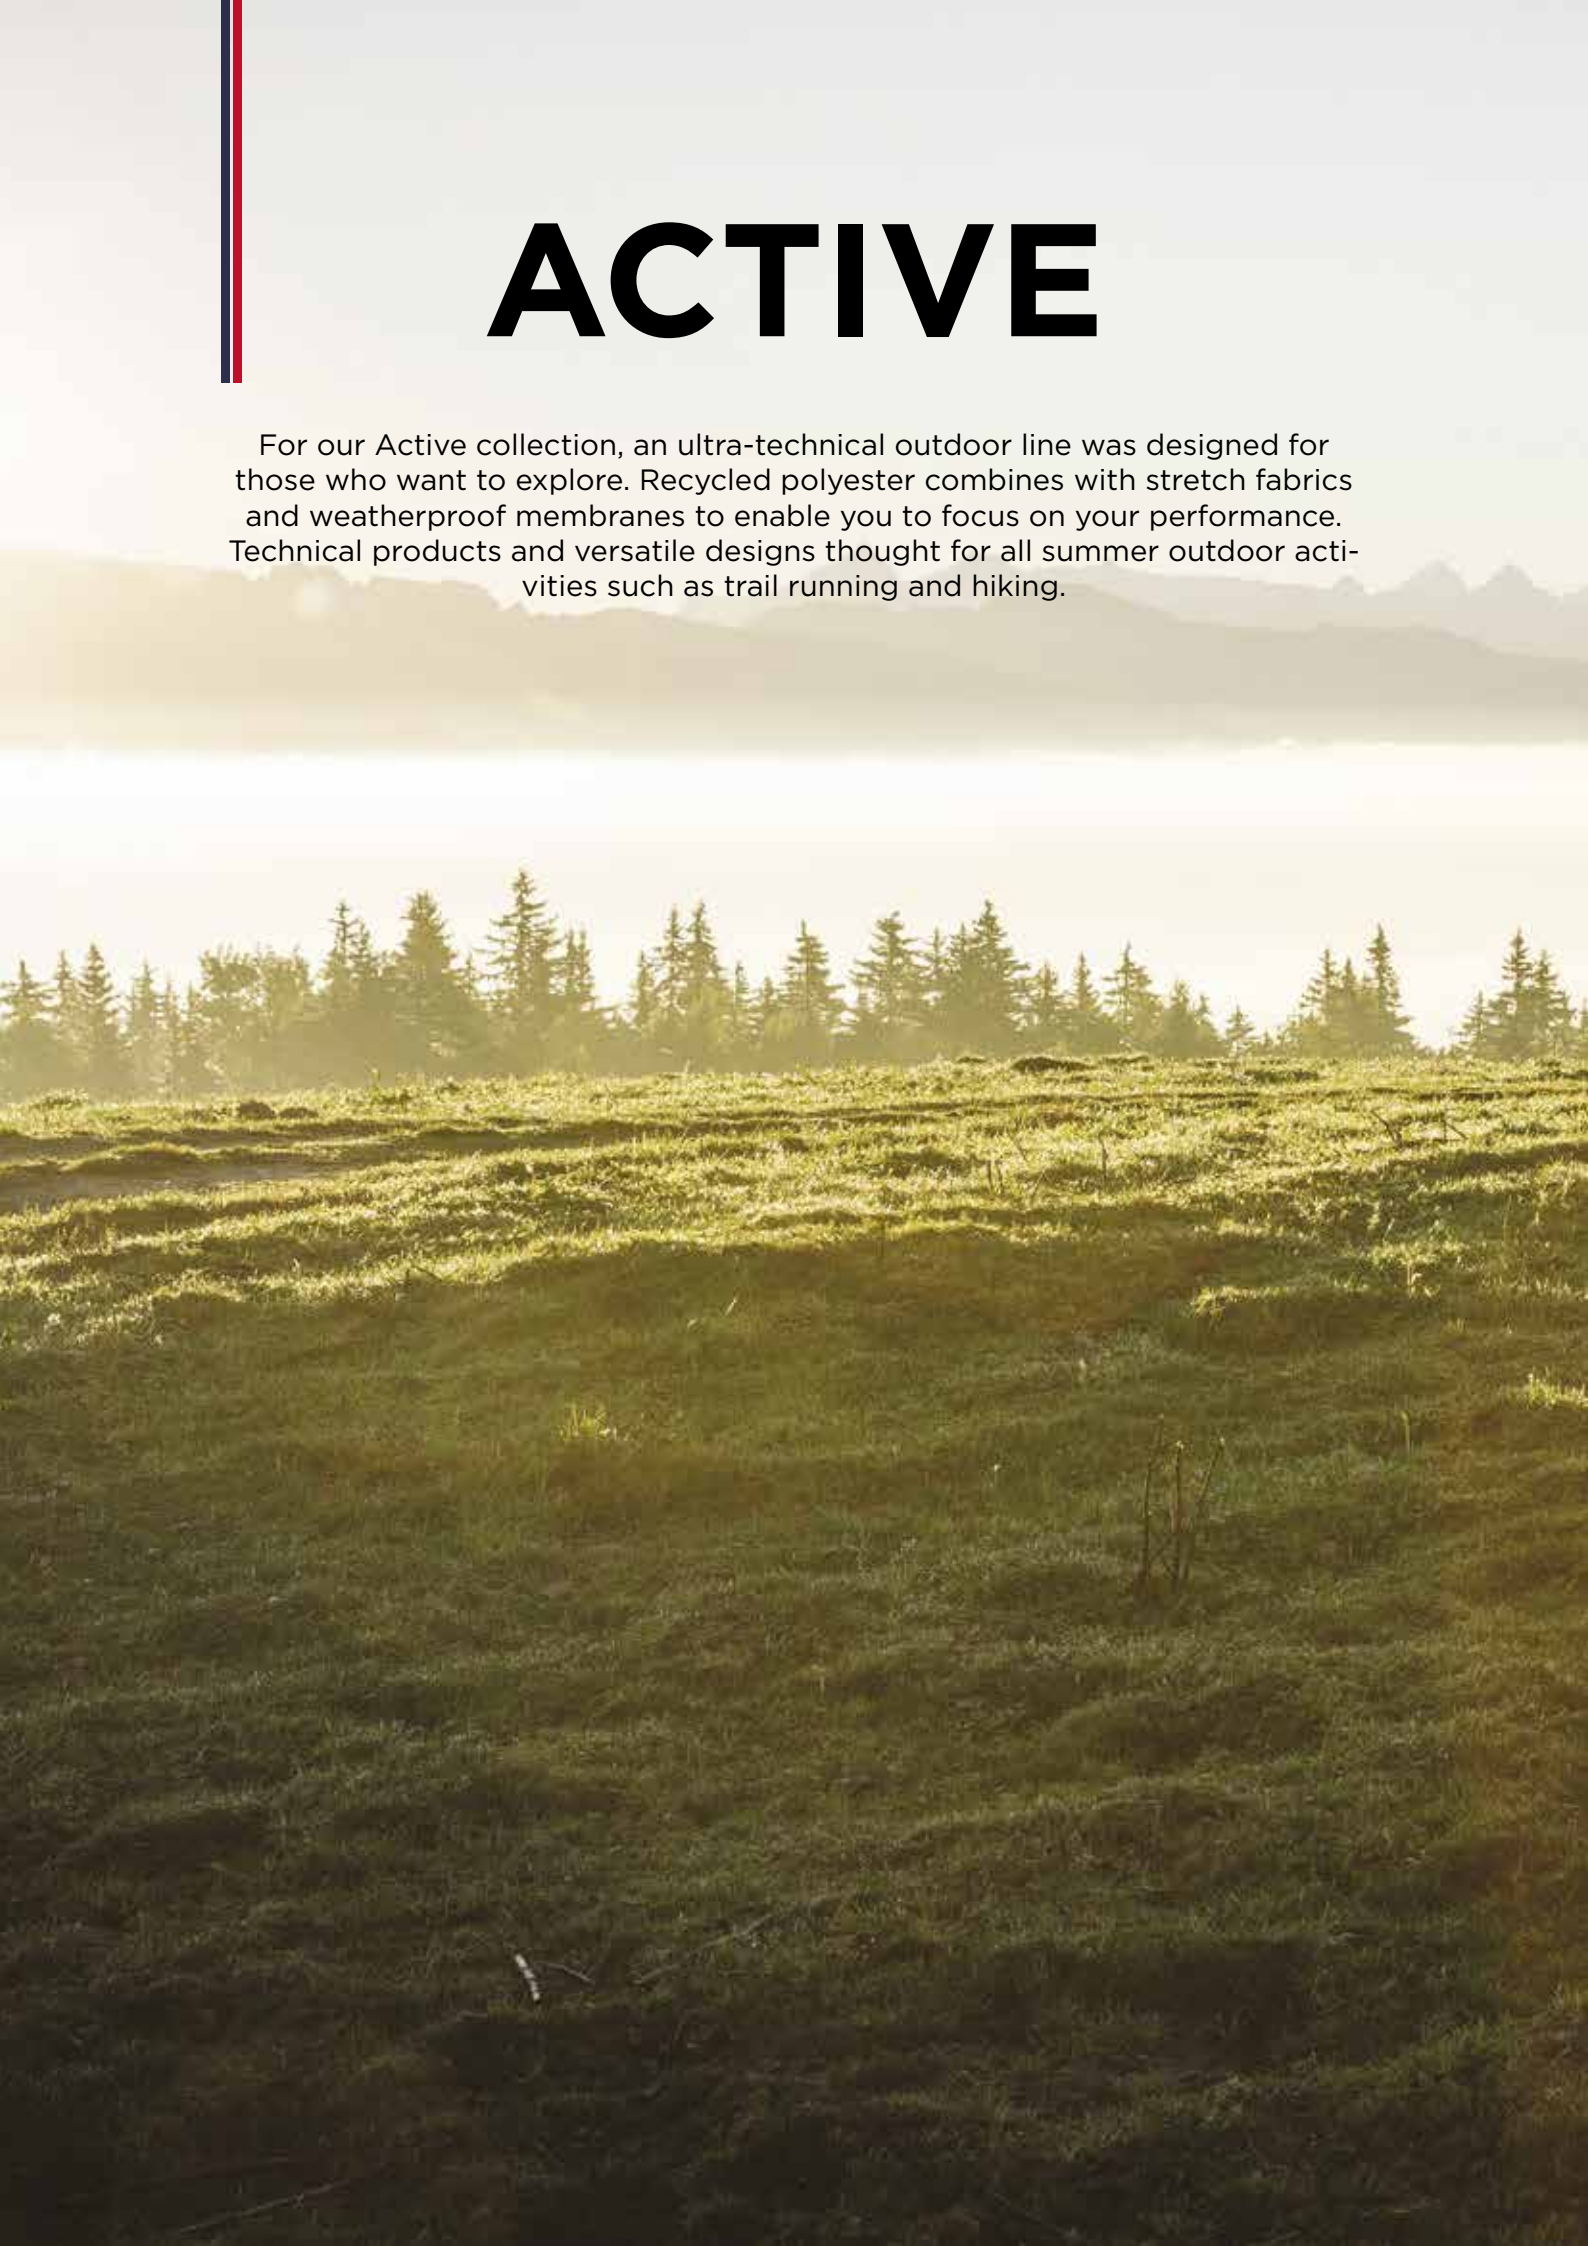

COLLECTION 2021

We focus on projecting the balance between aesthetic and functionality onto urban experiences, traveling adventures and outdoor escapes, marking the beginning of a new brand development.

Multipurpose pieces meant for relaxed athletes to enjoy the outdoor nature and urban explorers looking for distinguishing garments with a hype twist.
A new brand extension still in deep accordance with who we are.

ACTIVE

For our Active collection, an ultra-technical outdoor line was designed for those who want to explore. Recycled polyester combines with stretch fabrics and weatherproof membranes to enable you to focus on your performance. Technical products and versatile designs thought for all summer outdoor activities such as trail running and hiking.

A full-page background image showing two hikers, a man in a red jacket and a woman in a dark jacket, walking across a grassy ridge. In the background, there is a body of water and a range of mountains under a hazy sky. The lighting is warm, suggesting sunrise or sunset.

SPORTSWEAR

Key styles inspired
by our winter graphic
codes and stories.

R-EXP

A versatile training
line featuring technical
products designed for
trail running, hiking and
other summer outdoor
activities.

SPORT CHIC

Bringing functionality into urbanwear in our Sport Chic collection, we chose high-quality and technical materials inspired by skiwear. From a weatherproof membrane to magnetic zippers, every detail is thought for the active city-dweller. The materials were chosen carefully, with an emphasis on organic or recycled fabrics.

Inspired by the four elements, the collection is functional and every garment is designed for a specific final use.

WATER

Say goodbye to humidity thanks to waterproof and fully taped jackets.

EARTH

Highly functional and hybrid jackets to be worn from the mountains to the cities.

FIRE

Stay comfortable thanks to breathable and move freely with stretch garments.

AIR

Stay protected from the wind thanks to windstopper and taped jackets.

WATERPROOFNESS AND BREATHABILITY

MP+

The perfect balance between waterproofness and breathability. For nearly 20 years the MP+® membrane has been used by runners and outdoor enthusiasts and is renowned for its breathability (20K), waterproofness (20K) and durability. The Revolutiv MP+ membrane fabric weighs only 32g/m², designed for high intensity use where weight and performance are critical factors.

20 000
WATERPROOFNESS

10 000
WATERPROOFNESS

20000/10000 MEMBRANE

The products are equipped with a 10,000 mm, 20,000 mm or 45,000 mm membrane to guarantee waterproofness. The breathability of our products, that is the capacity of a garment to evacuate humidity and moisture, varies between 10,000 gr/m²/24h and 45,000, gr/ m²/24h.

SYMPATEX

The Sympatex® membrane while being extremely waterproof (>45000mm Schmerber) and breathable (>45000 mm/m³/24h) is an eco-friendly membrane. Stretching up to 300%, the SYMPATEX membrane is flexible and resistant.

FULLY SEAMS

All seams are taped to create ultimate seal against wind and snow.

CRITICAL SEAMS

Main seams are taped to create a sufficient protection seal against wind and snow.

DURABLE WATER REPELLENT TREATMENT

Our skiwear is coated with a DWR (Durable Water Repellent) treatment. It allows the water to drip along the clothing without entering inside.

OLOGIES

OTHERS

POLYESTER ECO

We try to follow a sustainable development approach. The Eco-Polyester presents an ecological and economical advantage. This material offers all the comfort and quality of a product made from conventional polyester, the big difference being that it is a raw material made from recycled plastic (industrial waste polyester, plastic bottles...). By doing so, we significantly limit the consumption of the planet's resources, while maintaining the advantages of conventional polyester (lightweight, quick drying and easy maintenance).

STRETCHABILITY

Depending on the elastane composition, our 2-way or 4-way stretch membrane can adapt to every movement constraints.

MAGNETIC ZIP

Easy, One-Hand Zip Magnetic zipper closure makes for easy, one hand zipper operation.

SEAMFREE

The audacious and innovative seamless construction reduces the weight of the garment and improves its stretchability and waterproofness. Less frictions, more lightness, better waterproofness and breathability.
