# ABOUT US

**SINCE 1907,**

Rossignol has celebrated skiing. A small workshop next to the French Alps, with a direct view on snowy peaks : **Abel Rossignol's workplace**. All began with the strong and sweet smell of wood on newly-cut skis. The joys of snow. The revelation of young ski champions. The first Olympics victories on Rossignol skis. An image specialized in ski racing. Rossignol was born.

Today, things evolved but we stayed the same: a focus on craftsmanship and high-tech equipment, a continuous quest for quality and performance. Icon of the past and symbol of the present, inspired by **French roots and historical ski heritage**, we hold no boundaries for continued improvement and avant-gardism.

Benefiting from this deep legacy, Rossignol Apparel was founded in 2015. A performance and sport chic skiwear and urban fashion brand rooted in skiing. An expertise transferred from ski equipment to apparel. We were determined to find something different. We succeeded in finding the thing we love and endlessly pursuing it.

# WHAT DRIVES US

A virgin summit, the first ski track in the morning or an improvised path between the snowy pines. Our goal? To outfit skiers with a deep dedication to style, authenticity, quality and performance. We aim to share our passion for sports through the constant quest for performance and innovation.

**We believe in the power of the unique balance between aesthetics and function, between authenticity and modernism.**

Our clothes are distinguished by a perfect fit, premium technologies, high-quality materials and sophisticated details - all marked by the signature blue, white and red rooster logo.

## 1907

Abel Rossignol shapes its first solid wooden skis in Voiron, inspired by Norwegian models.

## 1937

The gold winner Emile Allais is the first world Champion on Rossignol skis. It is the beginning of the strong relationship between Rossignol and the best ski champions.

## 1941

The Olympic 41 lays down the foundations of the modern ski.

## 1965

The iconic Strato ski is born. The first ski to sell more than a million pairs. The experience of new sensations.

## 1990

The first logo of the apparel line: the Ibx Logo with the first Gore-Tex partnership.

## 1996

The "Junior program" symbolizes the first steps of Rossignol in apparel. Speed suits, windbreakers, anoraks and rain outerwear for young people. The apparel adventure was launched.

## 2001

Rossignol starts to design skiwear in collaboration with the fashion designer Jean-Charles de Castelbajac. The first co-branding is dedicated to the French Freestyle team for the Salt Lake City Olympic Games in 2002. The beginning of an ultra-creative collection.

## 2003-2005

Rossignol keeps equipping the best. Manu Gaidet, three times freeride world's champion, is even involved in design.

## 2014

Release of the Chamonix boots, famous Rossignol après-ski and city boots.

## 2015

Creation of the Rossignol Apparel division. A second wind and a new vision for the brand which is more than ever dedicated to premium skiwear and urban fashion.

## 2017

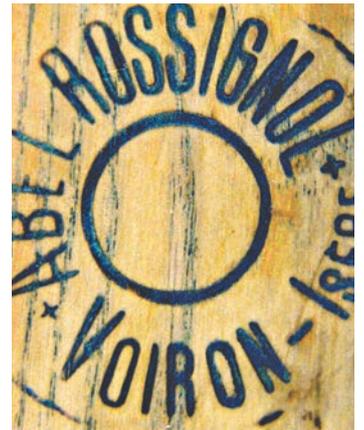

Launch of the Urban Escape campaign with the 11 times biathlon world champion Martin Fourcade. The partnership with the best ski champions continues and reaches the new boundaries of urban fashion.

## 2018

Opening of the Paris flagship store, a new urban adventure in a world-class capital city.

## PERFORMANCE

The values of racing and technicity, true to the Performance collection, are the roots of Rossignol. From the Nordic skiing trails between the pines to the freshly groomed slopes including off-piste areas with deep powder snow, the Performance lines seek new barriers to conquer.

## SPORT CHIC

The Sport Chic collection is the perfect blend of elegance and technicity. Heritage inspired, this unique line uses noble materials for jackets, knitwear and pants to stand out from the crowd on the slopes.

To stay true to our heritage, we used the royal blue seen originally on the base of the world renowned Strato ski on most jackets and pants. Our emblematic blue, white and red rooster logo showcases the French touch of a century know how of fashion and chic. A premium collection.

## CRÉATEUR

In collaboration with the fashion designer Jean-Charles de Castelbajac, the Créateur collection is an unique and colorful skiwear line along with sweaters, sneakers and accessories born from the imagination of the creator.

Colorful, with a hint of craziness, contrasting black and white patterns, mixed fabrics and adjusted cuts, highlight this unique collection.

### FW20 DESIGN INSPIRATIONS

The FW20 Performance collection pays tribute to our deep heritage of **innovation** and racing legacy. Innovation is the foundation of our research and design process.

Inspired by urban techwear, our garment construction is refined and pure: every line has a specific meaning. Between a **new auto-repair fabric**, a **protective underwear** and **preformed sleeves** with a helical structure, skiwear has never been so anatomical and liberating.

Our design signature is tied to our century old **ski heritage**: the **two parallel stripes** inspire our styles, patterns, garment composition and architecture. They symbolize the skis, the two tracks on the ski slopes and are an emblematic reference to our deep universe. **The V-shape** as well is part of our design language. Symbol of victory and a close reference to sports.

ANOTHER BEST DAY

MORE THAN A CODE, THE **GREEN LIGHT** WHICH SHINES AS SOON AS A SKIER GETS THE **RACE FIRST PLACE**, MARKS OUT THE PERFORMANCE WAY. WHEN IT ENLIGHTENS THE FINISH AREA, IT REVEALS THE **ULTIMATE REWARD**.

HERO DEPART  
JACKET

HERO EXCES  
ANORAK

The Hero capsule stands out thanks to the best technologies and materials but above all thanks to a unique and **high-end design**: touches of **neon green**, **Hero prints** and **neon red stripes**, directly inspired by racing and by the Hero ski, give a premium and high-tech look. Specific codes only understandable by **ski racing lovers**.

## || HERO

### CAPSULE COLLECTION

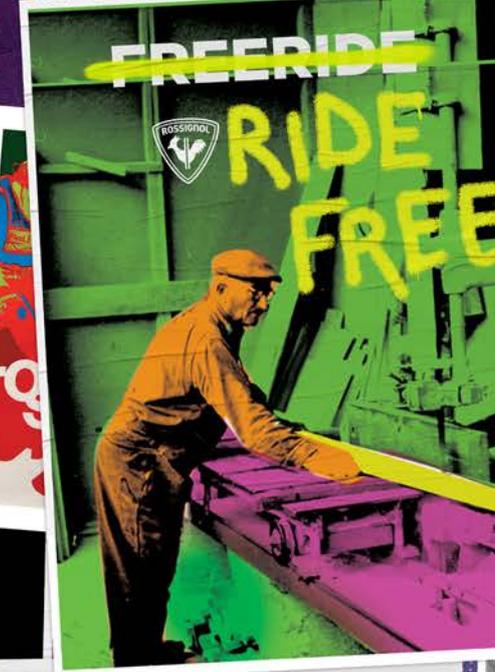

Inspired by the emotions generated by victory, Rossignol Apparel designed a premium Green Light capsule. Dedicated to all the heroes who **switch on the green light** on the white circus. A Hero capsule designed for the most passionate.

# ~~FREERIDE~~

# RIDE FREE

FUN. EXPRESSION. CREATIVITY. STYLE.

THE RIDE FREE COLLECTION IS DESIGNED FOR ALL GENDERS, MIXING MOUNTAIN AND URBAN EXPERIENCES. ONE MOTTO: LET OUR IMAGINATION RUN FREE AND OUR CREATIVITY GO WILD. FIND THE TRUE ESSENCE OF FREERIDE.

**ON THE MOUNTAIN AND OFF THE MOUNTAIN.**

From anoraks to shell jackets, the RIDE FREE designs are progressive and bold. Stone graphics inspired by nature and stemming from a constant quest for aesthetics and a sense of adventure. We chose modern colours: raw clay contrasting with neon yellow, powder pink raised by coral details.

A NEW ENERGY, A NEW ATTITUDE, A NEW CULTURE.  
WE DON'T JUST FREERIDE. WE RIDE TO CREATE AND SHARE.

## SPORT CHIC

---

The FW20 Sport Chic collection mixes two universes, the mountains and the city, by offering technical and refined ski outfits with an urban inspiration.

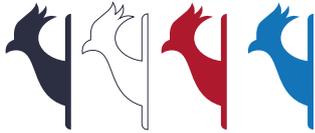

Unique garment construction, mix of fabrics, three-coloured legacy and sophisticated details are characteristic of this modern and trendy collection.

## SPORT CHIC COLORS INSPIRATIONS

The blue, white and red, the three emblematic colors of Rossignol, inspired by the French flag, are the leading colors of the Sport Chic collection. To stay true to our heritage, we use also on our products' lining & details the royal blue originally seen on the base of the world-renowned Rossignol Strato ski.

### - CORE COLOURS -

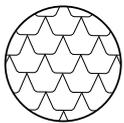

blue, white, red, royal blue

### - SEASONAL COLOURS -

clay, fluo yellow, neon red, baby blue, pink fushia, bordeaux

## SPORT CHIC TECHNOLOGIES

COVERSHIELD

### COVERSHIELD

A new down jacket construction method. The down compartments imbricate and articulate in order to cover the seams with fabric. Improves greatly the waterproofness of puffy jacket.

### KNITTED TECHNOLOGY

A new revolutionary, seamless, ultra stretch and flexible stitching method with 3D lamination. Fully knitted, it improves the freedom of movement, comfort and breathability.

10 000 / 20 000

### WATERPROOFNESS

Thanks to our 10 000 / 20 000 mm waterproof membrane and a DWR coating which creates a water repellent shield, the jackets, down jackets and pants of Sport Chic collection keep skiers dry whatever the weather conditions.

### STRETCHABILITY

Depending on the elastane composition, our 2-way or 4-way stretch membrane can adapt to every movement constraints.

### INSULATION PRIMALOFT®

First alternative to down, the synthetic insulation Primaloft® shows surprising functionalities in wet and cold environments. Its water-repellent treatment can keep the skier warm even wet. Packable, the padding is very compact and flexible.

### 3M™ THINSULATE™ FEATHERLESS 700 INSULATION

Featherless Insulation (Type FL700) is an alternative to natural down designed to mimic its warmth and performance of an equal quality of 700 «fill power».

- As lightweight as natural down
- Performs when wet
- Extreme warmth
- Provides versatile design capabilities
- Highly compressible

### DUVET DU FAUBOURG®

Jackets insulated with Du Faubourg down 90/10 750 fill power are perfectly adapted to every weather condition and allows its user to stay dry and warm. This specific French down brings a lighter, natural heat sensation that is also very comfortable and extremely packable.

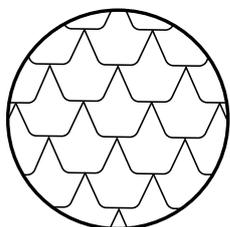

ANOTHER BEST DAY

# COVERSHIELD

As an elegant alloy of subtly vintage Sport Chic spirit, ultra-innovative construction and bio-mimetics, the Covershield concept is a technical and avant-garde construction method of ski down jackets.

It revolutionizes the ski down jacket and sets new codes for the development of **highly watertight down jackets**.

Inspired by the armadillo and its dorsal armor made of **overlapping scales**, the down compartments imbricate and articulate in order to cover the seams with fabric. Thanks to a simple but **ingenious mechanical effect**, water can slide off the surface without reaching the seams, the least waterproof jacket's parts.

COVERSHIELD

**NATURE & ARCHITECTURE** INSPIRATION  
**INGENIOUS** MECHANICAL EFFECT  
**OVERLAPPING** SCALES

## THE REVOLUTION OF DOWN JACKET

Thanks to this unique construction, it is useless to make the seams watertight with thermoglued stripes.

The jacket increases its ergonomomy and lightness.

A new construction concept we applied to every collection, **from skiwear to urban fashion.**

The revisited version of our iconic Palmares jacket.

Redefining the concepts of elegance and tech, the Palmares Flyknit jacket features our innovative construction MEMBRAINI15 – ultra-soft, stretchy, and seamless fabric with 3D lamination –. It combines a waterproof (20,000 mm), breathable (20,000 g/m<sup>2</sup>/24h) membrane with Primaloft® Silver insulation for an optimal weight/heat ratio.

JEAN-CHARLES DE CASTELBAJAC

SECRET

**Rossignol Apparel and the fashion designer Jean-Charles de Castelbajac** have been working together for over a decade, creating technical garments with originality and elegance in unique designs.

For the FW20 season, the new collection HIJACK THE BLACK is stunning and creative. Jean-Charles de Castelbajac plays with the power of the black darkness to enhance its favourite primary colours. Bringing joy and hope in winter, the colourful rainbow will enlighten the slopes.

Jean-Charles de Castelbajac reinvents shapes through slendered silhouettes and boxy jackets worn on high-waist and slim pants. He modernizes down by embedding e-fur, jacquard icons patterns, softshell inserts and colourful stitching prints.

**A colourful and unique collection, directly taken from the Createur imagination.**

## CREATEUR TECHNOLOGIES

### INSULATION

#### DUVET DU FAUBOURG®

Jackets insulated with Du Faubourg down 90/10 750 fill power are perfectly adapted to every weather condition and allows its user to stay dry and warm. This specific French down brings a lighter, natural heat sensation that is also very comfortable and extremely packable. Traceable down certified with Duntrack Down & Feathers (food industry waste, periodically audited by third party (IDFL).

### WATERPROOFNESS

#### SYMPATEX®

The new Made in France W ECO-LOGIC 3L Jacket features the Sympatex® membrane which guarantees extreme waterproofness (>20000mm Schmerber) and breathability (>20000 mm/m<sup>3</sup>/24h). Eco-friendly, it is an 100% recyclable membrane. Stretching up to 300%, the SYMPATEX membrane is flexible and resistant.

## TECHNOLOGIES

### WATERPROOFNESS AND BREATHABILITY

20,000  
WATERPROOFNESS

10,000  
WATERPROOFNESS

#### 20000/10000 MEMBRANE

The products are equipped with a 10,000 mm or 20,000 mm membrane to guarantee waterproofness. The breathability of our products, that is the capacity of a garment to evacuate humidity and moisture, varies between 10,000 gr/m<sup>2</sup>/24h and 20,000, gr/m<sup>2</sup>/24h.

#### DURABLE WATER REPELLENT TREATMENT

Our skiwear is coated with a DWR (Durable Water Repellent) treatment. It allows the water to drip along the clothing without entering inside.

#### R-DRY

For all Rossignol products made of a transfer or quick dry fabric.

#### 37.5™ TECHNOLOGY

- Dry fast
- Regulation of the body temperature
- Natural fibers from coconut shells
- Perfect body moisture regulation
- Long resistance to washings

#### SYMPATEX

The Sympatex® membrane while being extremely waterproof (>45000mm Schmerber) and breathable (>45000 mm/m<sup>3</sup>/24h) is an eco-friendly membrane. Stretching up to 300%, the SYMPATEX membrane is flexible and resistant.

#### GORE-TEX

A waterproof, windproof and breathable membrane. An extremely thin layer of expanded polytetrafluoroethylene (ePTFE). 9 billion pores per square inch offering unique protective characteristics.

#### IMP'R

The IMP'R membrane is exclusive to Rossignol ski gloves : waterproof and breathable.

## INSULATION

### DUVET DU FAUBOURG

Jackets insulated with Du Faubourg down 90/10 750 fill power are perfectly adapted to every weather condition and allow its user to stay dry and warm. This specific French down brings a lighter, natural heat sensation that is also very comfortable and extremely packable. Traceable down certified with Duntrack Down & Feathers.

### PRIMALOFT®

First alternative to down, the synthetic insulation Primaloft® shows surprising functionalities in wet and cold environments. Its water-repellent treatment can keep the skier warm even wet. Packable, the padding is very compact and flexible.

### 3M™ THINSULATE™

3M™ Thinsulate™ Insulation is warm yet lightweight, powerful yet thin. It helps trap and hold body heat, while allowing moisture to escape. The extremely fine microfibers in Thinsulate™ insulation help trap air and block body radiant heat loss, making it an efficient insulator.

### 3M™ THINSULATE™ FEATHERLESS 700 INSULATION

Featherless Insulation (Type FL700) is an alternative to natural down designed to mimic its warmth and performance of an equal quality of 700 «fill power».

- As lightweight as natural down
- Performs when wet
- Extreme warmth
- Provides versatile design capabilities
- Highly compressible

### INSULATION 160/100

Synthetic insulation. Different weights to provide adapted warmth to various needs (160 for the body and 100 for the arms).

### POLYDOWN

Synthetic down. Exclusive, microfiber polyester concept used to mimic down, insulation remains highly competitive and warm.

### R-WARM

For all Rossignol products made of a warm and breathable fabric. Different weights to provide adapted warmth to various needs.

### FIBERFIL

Quick-drying glove insulation that stays warm even when wet.

### WOOL

Wool insures warmth and comfort with its natural fibers.

## PERFORMANCE IMPROVEMENT WITH EXCLUSIVE TECHNOLOGIES

### COMPRESSION

Designed specifically for the most intense sports, like Nordic skiing, patented Rossignol Innovative Compression technology associates compression with dynamic gradient : different compression ratios according to the zones of the body that are most used during efforts. Certified Lycra Sport® fabrics are long lasting and super comfortable.

### STRETCHABILITY

Depending on the elastane composition, our 2-way or 4-way stretch membrane can adapt to every movement constraints.

### WINGLET

The new-patented Winglet Technology revolutionizes the existing **venting systems**. It features an intelligent and **canalized airflows circulation**, from the ribs to the top of the back, adjustable and activated by zips.

**SEAMFREE**

### SEAMFREE

The audacious and innovative seamless construction reduces the weight of the garment and improves its stretchability and waterproofness. Less frictions, more lightness, better waterproofness and breathability.
