COLLECTION WINTER 21/22

We are committed to supporting and promoting activities that help to make our planet a better place and we are proud to announce that beginning with the winter collection 21/22, the majority of the KELLY ski clothes production will be using eco-friendly/recycled polyester, which is the green sustainable alternative to virgin polyester

Some Facts:

Recycled polyester uses PET as a raw material - same material as used in clear water-bottles. Recycling these bottles by creating fabric prevents to landfill. The process converting PET into recycled polyester uses 33-53% less energy.

It reduces our dependence on petroleum as a raw material.

The garment created from recycled polyester can be recycled again and again with no degradation of quality, allowing to minimize wastage.

We hope that eventually garment producers could become closed loop systems and polyester could forever be reused and recycled.

In short: It's environment friendly and we are proud that Kelly is part of this movement

With 653 740 tons of cloth sent to landfill every year, recycling textiles is becoming increasingly necessary.

The technology of recycling polyester has nominal waste, consumes limited energy and causes very little pollution.

Ski fashion goes green

Embrace the MILKYWAY collection, inject a shot of glitz and sexiness into the next ski season and play around with flashy metallic pink, bold ocean blue and muted earthy metallic stone.

You have the choice between the full metallic MILKYWAY collection or just a “splash of it” that transforms your new ski outfit into the new trendy look for the upcoming winter season.

Snuggle into the light weight full down duvet jacket, with bold pocket applications or the 80th retro inspired voluminous snow shirt which makes a very sophisticated and warm outfit when worn under the new puffy down duvet vest. You can be sure to make an impact with these lustrous metallic stand out pieces.

For those who only want a splash of the new metallic, opt for the soft and light slim fit jacket in white/metallic stone, black/ metallic stone or bright pink and ocean blue with ton sur ton metallic flashes. All of these are guaranteed to keep you warm as much as they will put your silhouette in the limelight.

If you are up for the ultra-sporty look and if you want to put your slender silhouette in the limelight then go for the iconic one piece with contrasting metal stripes. Made for the women who wants to be seen, who is always in motion and brave enough to stand out!

Team the style with matching accessories: be it the color coordinated 1st layer with visual logo motifs, or the 2nd layer both made out of high-tech material – both equal parts functional, technical, cool and cozy.

All our collections are complemented by color coordinated stretch ski trousers which excel due to exceptional fit, high tech materials and the perfect cut to flatter every silhouette.

All in all this season calls for lustrous shine!

Think botanical illustrations with a tropical twist giving an eclectic look to your new ski outfit. Think strong vivid colors like pink and ocean blue or opt for sophisticated black and white for a more subtle alpine look - all faded together in a gradient pattern. Be sure the tropical flower look will catch everyone's eye.

Choose between the puffy down duvet jacket with contrasting red and white side panels for a sportier look or our slim fit jackets to flatter and elongate your silhouette.

If you are looking for a brand new look opt for the 80th inspired voluminous snow shirt, this year with a warm lining, to be worn on its own for the new oversized Look or in combination with a puffy down duvet vest from the color coordinated MILKYWAY collection.

Opt for the one piece look with the matching jet ski trousers or make a statement and go for the one piece icon, feel the tropical island breeze and show your assuredly effortless sophistication.

Team the style with the matching accessories on and off the slope: be it the color or print coordinated 1st and 2nd layer made out of hightech materials – both equally functional, technical, cool and trendy or the cozy super soft and oversized teddy plush jumper with print coordinated Teddy bear application - the perfect piece to snuggle in and enjoy the après ski.

All our collections are complemented by color or print coordinated stretch ski trousers which excel due to exceptional fit, high tech materials and the perfect cut to flatter every silhouette.

Embrace nature with a splash of color!
