INSPIRED BY NORDIC NATURE

LUHTA HOME

Our nature. Our home.

We are at home with Nordic nature. The vividness and silence of nature is where we draw our inspiration. To us, wisdom is found in the woods. To preserve our precious nature, we are constantly striving to find new solutions for our product manufacturing processes. Nature is important to us.

Products made from organic cotton are marked with an organic cotton hangtag.

All sustainable products have a Sustainable Choice hangtag. The product care label specifies information of sustainable material. For example the product may be made partial from recycled material or inner pillow of a decorative cushion may be made of recycled polyester.

The product contains wood fibre. Wood fibre is a renewable, recyclable and biodegradable material and leaves a significantly smaller environmental footprint than traditional fibres.

This product contains wool. Content of material combination can be found from the product care label.

This product contains linen.

INSPIRED BY NORDIC NATURE

We believe in uncomplicated homes and every day simplified. We are at home with Nordic nature. The vividness and silence of nature is where we draw our inspiration for finely-crafted and pure home textiles and accessories. Welcome to the home of pure simplicity and lasting style.

ORGANIC COTTON

Organic cotton is a soft, durable and natural material cultivated without harmful chemical fertilizers or pesticides.

Its production process is certified and its origin is traceable. The product dyeing and printing methods are based on the use of water-soluble dyes.

SUSTAINABLE CHOICE

Sustainable choice products contain recycled materials. Re-used materials leave less burden on our environment. They reduce waste and support the circular economy. Re-used materials help conserve water and energy and spare natural resources by giving existing materials new lives.

ENVIRONMENT FRIENDLY PACKAGES

We lead the way towards a more sustainable future. In addition to the organic cotton and recycled materials we have given up to use plastic in package material. Our cardboard hangers, hangtags and packages are made of recycled and biodegradable FSC certified paper.

SAVING THE EARTH

As a part of sustainability and eco friendly practice, main part of our product manufacturing energy is produced by solar power. Water that we use for processing and dyeing is re-processed and re-used. Our transport method reduces CO² emissions significantly. Instead of sending our products by air, we ship them.

KEEP IT IN THE FLOW

Make someone else happy by donating old textiles that are still in good condition, or find them a new owner through second-hand shops. When textiles come to the end of their useful life, consider recycling the material instead of throwing it out. Recycled textiles, such as cleaning cloth or as insulation material.

Bathroom and Sauna

Dip into
simplicity.

THE SCENT CONCEPT

The Memories from the North fragrance collection was created to complement Luhta Home's high-quality home textiles.

The new products have a look that is of pure simplicity and lasting style, and the scents themselves are inspired by meaningful moments and Finnish nature. We want our fragrances to fill rooms and minds with Memories from the North.

The carefully crafted collection includes scented candles, scent diffusers, sauna fragrances and laundry vinegar. All fragrance products are recyclable and completely vegan. The packages contain 0% plastic and even the cup of t-lights is made from 100% compostable vegetable oil. In addition, all products are made in Europe from entirely European raw materials.

Memories from the North.

AUTERE

birch buds, field flowers, evening mist

Across the clover field, under the old
birch tree. I am sensing the silence
of this summer night. I braid my hair,
wave the hem of my flowery dress.
Here I am, waiting for you.

LUHTA

S O P U

roughly ground cardamom seed

I pour the cardamom seeds
from the mortar, a familiar scent
fills the air. We put our hands to
the bowl. In this cosy universe
of ours, we bake this world
a better place.

TUPA
smoke, dry wood, pine oil, tar
A silent forest enfolds the cabin,
outside the daylight fades fast. I'm
savouring the blankets secure weight
on my shoulders, resting my eyes
and thoughts on the flames playing
in the fireplace.

Icons

ORGANIC COTTON
Organic cotton is natural material cultivated without harmful chemical fertilizers or pesticides

SUSTAINABLE CHOICE
The product contains recycled materials and can be a more sustainable alternative for environment

RPET
The product contains material that is made of recycled plastic bottles

LINEN BLEND
The product contains linen. Linen is a strong, durable, natural material with beautiful sheen and pleasant roughness

WOOL BLEND
The product contains wool that regulates the temperature according to the needs of the body and repels moisture and dirt naturally

HANDMADE
Product is handmade

REAL LEATHER
There are leather details in this product

PREWASHED
Product is prewashed

OEKO-TEX
Product has Oeko-tex certification.

FITTED SHEET
Fitted sheet with elastic parts in corners

BOX
Product is packed to sales box

WOOD FIBRE
The product contains wood fibre. Wood fibre is a renewable, recyclable and biodegradable material and leaves a significantly smaller environmental footprint than traditional fibres.

BANDEROL
Product is rolled and packed with informative banderol

BANDEROL
Product is packed with informative banderol

HEADER
Product is packed with informative header

INSERT
Product is packed to bag with informative insert

GIFTPACK
Wrapped with logo bands

FABRIC BAG
The product is packed in a cotton pouch, which can be easily re-used in a number of ways.

HANGER
Product is packed with cardboard hanger

HANGTAG
Hangtag with EAN sticker

FOLDED
Folded package

INSPIRED BY NORDIC NATURE
Our nature. Our home. Nature is where we get our inspiration for colors and materials.

SAVING THE EARTH
Our product manufacturing energy is produced by solar power. Water that we use for processing and dyeing is re-processed and re-used.

KEEP IT IN THE FLOW
Recycled textiles can be put to various uses, such as cleaning cloths or as insulation material.
