LUHTA HOME

Our nature. Our home.

We are at home with Nordic nature. The vividness and silence of nature is where we draw our inspiration. To us, wisdom is found in the woods. To preserve our precious nature, we are constantly striving to find new solutions for our product manufacturing processes. Nature is important to us.

Products made from organic cotton are marked with an organic cotton hangtag.

All sustainable products have a Sustainable Choice hangtag. The product care label specifys information of sustainable material. For example the product may be made partial from recycled material or inner pillow of a decorative cushion may be made of recycled polyester.

The product contains wood fibre. Wood fibre is a renewable, recyclable and biodegradable material and leaves a significantly smaller enviromental footprint than traditional fibres.

This product contains wool. Content of material combination can be found from the product care label.

This product contains linen.

INSPIRED BY NORDIC NATURE

We believe in uncomplicated homes and every day simplified.
We are at home with Nordic nature. The vividness and silence of nature is where we draw our inspiration for finely-crafted and pure home textiles and accessories. Welcome to the home of pure simplicity and lasting style.

ORGANIC COTTON

Organic cotton is a soft, durable and natural material cultivated without harmful chemical fertilizers or pesticides.
Its production process is certified and its origin is traceable.
The product dyeing and printing methods are based on the use of water-soluble dyes.

SUSTAINABLE CHOICE

Sustainable choice products contain recycled materials. Re-used materials leave less burden on our environment. They reduce waste and support the circular economy. Re-used materials help conserve water and energy and spare natural resources by giving existing materials new lives.

ENVIROMENT FRIENDLY PACKAGES

We lead the way towards a more sustainable future. In addition to the organic cotton and recycled materials we have given up to use plastic in package material. Our cardboard hangers, hangtags and packages are made of recycled and biodegradable FSC certificated paper.

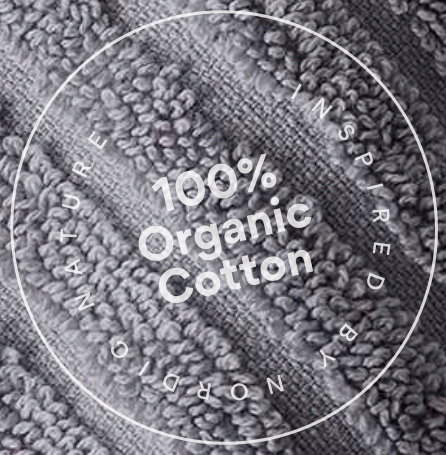
SAVING THE EARTH

As a part of sustainability and eco friendly practice, main part of our product manufacturing energy is produced by solar power. Water that we use for processing and dyeing is re-processed and re-used. Our transport method reduces CO^2 emissions significantly. Instead of sending our products by air, we ship them.

KEEP IT IN THE FLOW

Make someone else happy by donating old textiles that are still in good condition, or find them a new owner through second-hand shops. When textiles come to the end of their useful life, consider recycling the material insted throwing it out. Recycled textiles, such as cleaning cloth or as insulation material.

Bathroom and Sauna



Dip into simplicity.

Say good night to light sleep.

Satin / 100% organic cotton / 210TC

Satin cotton is a specific type of weave. Satin cotton duvet covers have a nice glimmer with a texture that is luxuriously smooth and soft, making them ideal for the everyday festive moments. Satin cotton is often recommended for people with allergies because it is tightly-woven and dust-free.

Percale / 100% organic cotton / 200TC

Percale cotton sheets are delightedly luxurious and made from very high-quality fabric that keeps its shape and quality year after year. Percale is a tightly woven, cool to the touch, and easy-care type of fabric, and percale sheets only improve with every wash. These sheets bring joy for a long time.

100% cotton / 144TC

Cotton is an easy-care and breathable natural fiber. Cotton is virtually static-free and can withstand frequent washing even at high temperatures. The basic cotton sheets in our collection are made from high-quality fabric that feels comfortable on the skin and ensures a good night's sleep.

Wrapped with logo bands

HANGER
Product is packed with cardboard hanger

HANGTAG
Hangtag with EAN sticker

FOLDED
Folded package

LIMITED EDITION
Only available in limited selection

INSPIRED BY NORDIC NATURE
Our nature. Our home. Nature is where we get our inspiration for colors and materials.

SAVING THE EARTH
Our product manufacturing energy is produced by solar power. Water that we use for processing and dyeing is re-processed and re-used.

KEEP IT IN THE FLOW
Recycled textiles can be put to various uses, such as cleaning cloths or as insulation material.
