OUR PURPOSE
**FOR THE
MOUNTAINS**

PRODUCTS

We build for the mountains – all seasons, all terrains. Our purpose and know-how drive innovation, and our innovation drives market solutions and performance.

PLAYGROUNDS

Rossignol is from the mountains. It's where we live, where we work, where we play. The mountain gives us inspiration, and is why we rise.

PLANET

Our obligation is to preserve the integrity of the mountains and in turn, the ecosystem of our planet, for generations to come.

**AND
A MOUNTAIN
FOR ALL**

ACCESS

Rossignol equips the first mountain experience for many outdoor lovers. We want to inspire more first times on the mountain, across regions, cultures and disciplines.

DIVERSITY & INCLUSION

Across every aspect of identity, we want more people to have more turns and greater representation so they can find a sense of belonging on the mountain, especially communities left behind.

FOUR SEASONS, ONE BRAND

Summer is a season of renewal, when sunlight floods down and life springs back to the hillsides. At Rossignol, this transition is part of the continuum of mountain living we celebrate every day. Winter's melt reveals the ribbons of earth we'll walk, run, hike, and bike all summer long. That's why, as a global leader in winter sports, we've expanded to offer a full range of products for every season—and every side of the mountain.

Whether you're strutting down the street, springing into your stride, or snapping into a berm, our products are crafted with the same style, technical excellence, and expertise that's made us the world benchmark in winter-sports equipment for over a century. All of it grounded in principles of sustainability that have become part of our DNA. We're here to enable human-powered movement and respect for the landscape with each step. Come run and hike with us.

FROM LIFESTYLE WEAR TO TECHNICAL APPAREL,
MOUNTAIN BIKES TO TRAIL RUNNING SHOES,
**OUR COLLECTION IS BORN FROM THE SAME
PASSION AND EXPERTISE THAT'S DEFINED
OUR LEGACY IN SNOWSPORTS.**

THE NEXT ERA OF ROSSIGNOL IS HERE

At Rossignol we're driven by the innate urge to go faster and farther; committed to developing technical solutions that open the mountains and outdoors to everyone, from active outdoor enthusiasts to the most committed athletes.

It's only natural that we'd extend our Spring-Summer '25 offer to include the purest form of mountain sport there is: **Trail Running**.

Developed for reaching goals both big and small, for casual and committed runners to endorphin addicts alike, we're confident our shoes deliver the traction, cushion, responsiveness, and support to propel you across whatever "finish line" is in your sights.

So let's lace up and go. The next era of Rossignol is here.

ROSSIGNOL & FEET, A LOVE STORY

Performance is our DNA. Over 115-years of competitive success and the human foot is the anchor point in everything we do. We've spent decades studying foot mechanics and scanned tens of thousands of feet.

So when we tasked our Performance R&D Center in Montebelluna to shift their sights to Trail Running - well, they had a nice head start - but miles still to run.

Create. Test. Repeat. This is our process.

Each step forward based on our global test team's feedback. A diverse group of avid trail and adventure runners. They benchmarked, ran, validated, and then ran some more. Every lug has a function. Each millimeter of rocker, stack height, and drop, all carefully tuned. Soles crafted to grip root and rock on dewy morning runs. Whether it's a subtle innovation or the Michelin OCX3 rubber and our Diapazon + Sensor3 technologies—the end-result is simply greater the sum of its parts.

Tester after tester agrees, we've created a shoe so good you'll forget it's on your feet.

2 MODELS OF TRAIL RUNNING SHOES

The all-new VEZOR has the propulsive performance to carry committed trail runners across long to medium distances.

VEZOR

RNNMA70/RNNWA70

AUDIENCE

Committed trail runners looking for propulsive performance across long to medium distances and rugged, technical terrain.

1. TECHNOLOGIES

Upper composition:

1. Breathable mesh - 30% recycled
2. Anti-Dirt Filter - 30% recycled
3. Internal wrapping cage + TPU toe cap to keep you safe from unexpected impacts - 30% recycled

Insole: Removable footbed system allows further refinement for a personalized fit.

Midsole: Our Diapazon «tuning-fork» shaped insert is sandwiched between a two part EVA midsole for rock protection and energy return to keep you moving forward with ease. Nitrogen infused EVA offers excellent cushioning, rebound and energy efficiency in your running stride.

Outsole: Michelin OXC3 rubber outsole churns across loose soil, rocks, and roots with effortless grip. Every sole lug is specifically located to maximize direction changes, braking, and propulsion.

2. FEATURES

- Weight: 282gr/shoe (UK size 8 for men) / 231 gr/shoe (UK size 5 for women)
- Precision and slim fit for perfect wrapping and race-ready performance
- 6mm drop for the right balance of reactivity and comfort
- Adaptable lacing system to evenly distribute lace pressure across all foot shapes
- Asymmetric heel reinforcement for great heel support
- Wedge Heel Cut - Acts like automotive 4x4 independent suspension to adapt to rough and ever-changing trail surfaces.

3. CONSUMER BENEFITS

- Lightweight
- Grip
- Breathability
- Cushioning
- Protection

4. DESIGN

- Dragonfly wings inspiration
- Performance-oriented
- Ski-inspired details
- Neon red is our key colour, symbol of our racing and performance DNA.

3 MODELS OF OUTDOOR FOOTWEAR

Wear them for **hiking** and **discover the mountain.**

SKPR 2.0 / W SKPR 2.0

OUR MOST ECO-CONSCIOUS ACTIVE SHOE, LIGHT, BREATHABLE AND COMFORTABLE.

AUDIENCE

Balanced Active people looking for a versatile and do-it-all technical shoe, suitable for both light trail runs and fast and short hikes. The high proportion of responsible materials should appeal to eco-conscious consumers.

TECHNOLOGIES

- Breathable mesh (improved breathability by 58% compared to SS23 model, validated by laboratory tests)
- Sensor3 footbed that reduces pressure points for relaxed feet
- Rubber sole with optimum grip thanks to multiangles studs.

FEATURES

- Drop 8
- New lacing system

CONSUMER BENEFITS

- The do-it-all active shoe.
- Lightness (314g for women sample compared to SS23 348g model).
- High Cushioning and comfort. Breathability.

DESIGN

- Seasonal colours
- Rooster logo on the back

SUSTAINABILITY

This shoe was made with the help of ACBC (Anything can be changed). ACBC is a BCORP leader in applied sustainability within the fashion industry and already serves more than 50+ global footwear and accessories premium brands in their sustainability transformation process. The ACBC methodology analyses scientific data to measure the efficiency in the sustainability transformation process and transform or create products with a lower environmental footprint.

The (W) SKPR 2.0 achieved 50,36% of responsible* input mixing recycled materials and bio-based ones. Here is the composition of the main parts of the shoe:

- Midsole: 45% Bio-EVA midsole features a bioplastic with vegetal content derived from molasses, a sugar cane industry by-product.
- Upper: 100% Recycled polyester upper material features post-consumer recycled PET bottles.
- Outsole: 25% Recycled rubber outsole uses pre-consumer factory waste.

*responsible: recycled of vegetal EVA, recycled PET, recycled rubber

5 MODELS OF LIFESTYLE SNEAKERS

HRTG RETRO / W HRTG RETRO

OUR HRTG RETRO SNEAKER IS A FORWARD-THINKING THROWBACK. MADE WITH RECYCLED MATERIALS AND VINTAGE STYLE, SUSTAINABILITY NEVER LOOKED SO GOOD.

AUDIENCE

Urban dwellers looking for a trendy and mountain-inspired sneaker with a focus on sustainability.

TECHNOLOGIES

A ski-camber-inspired EVA midsole and a ski-boot-inspired heel insert support your feet with cushioned comfort and stability

FEATURES

- Use of responsible materials. Mix of fabrics.
- 10% recycled ethylene vinyl midsole
- 30% recycled synthetic rubber outsole
- 37% recycled polyester mesh upper
- 100% recycled polyester laces.
- Drop 10mm
- Highly-breathable mesh for extended comfort

CONSUMER BENEFITS

- Eco-conscious choice.
- Improved fit to favor walking comfort that follows the latest market trends (less curvy sole - straighter)

DESIGN

- Numerous stylish colour versions
- Rooster logo
- Tricolor details and the iconic Rossignol rooster

HRTG / W HRTG

OUR HERITAGE MODEL. CLASSIC AND TIMELESS, WITH THE BRAND'S COLOURS.

AUDIENCE

Urban dwellers looking for a trendy and mountain-inspired sneaker.

TECHNOLOGIES

- 3D-mesh and suede upper balances breathability with classic style for comfort that lasts all day.
- A soft EVA midsole cushions every step for long-lasting comfort.

FEATURES

Embroidered logo. Rubber sole.

CONSUMER BENEFITS

Comfort and style.

DESIGN

Seasonal colours, three-coloured, logo and details, decorated sole.

ABEL

ICONIC ROOSTER LOGO AND ABEL INSCRIPTION FOR HERITAGE ROSSIGNOL STYLE.

AUDIENCE

Urban dwellers looking for a trendy and mountain-inspired sneaker.

TECHNOLOGIES

Premium leather.

FEATURES

Embroidered silicone logo on tongue and Abel inscription on side.

CONSUMER BENEFITS

Comfort and style.

DESIGN

Three-coloured, logo and details.

TECHNOLOGIES

SENSOR 3 SYSTEM

Concept developed by the Rossignol Group to improve foot support and comfort. The Sensor 3 technology is a footbed of variable densities. 3 zones of increased shock absorption help support the foot. This transfers to a gain in energy and increased comfort during use.

WATERPROOF MEMBRANE WR/TEX

WR/TEX membrane creates a waterproof and breathable barrier to keep feet dry

DURABLE WATER REPELLENT TREATMENT

The DWR (Durable Water Repellent) treatment allows water to drip along the clothing without entering inside.

EXCELLENT GRIP

The rubber sole allows a good apprehension of the grounds and a perfect grip on all terrains.

HIGHLY COMFORTABLE DROP

Drop is defined as the differential between the forefoot and the heel. The increase and /or decrease of this value (expressed in mm) changes the posture of the runner.
